Summary

Experienced Full Stack Software Developer adept in backend development and proficient in database management. Skilled in designing, developing, and sustaining high-performance web applications with Python. Demonstrates versatility in both independent and collaborative settings, committed to delivering top-notch products. Possesses expertise in database technologies and excels in the design and implementation of RESTful architectures. Knowledgeable in Agile methodologies and well-versed in DevOps practices.

SKILLS

| | |
|---|--|
| Programming: Python | Databases: MySQL, PostgreSQL, MongoDB, SQL Server, |
| Python Web Frameworks: Django, Flask, DRF | Tools: Jira, Postman, Bitbucket, VS Code, PyCharm, Eclipse |
| NumPy, Pandas | REST API & Docker |
| HTML, CSS, JavaScript | AWS Cloud Services & GCP |
| Git, Git Flow & GitHub | SQL & Migrations |
| MVC & MVT Architecture | PyTest (Unit Testing) |
| Agile Methodologies | Unix/Linux |

WORK EXPERIENCE

June 2019 - Current

Full Stack Developer
Wipro Ltd.

Pune

Project 1: July 2019 – September 2021

- Demonstrated strong proficiency in Core Python and Object-Oriented Programming (OOP) principles.
- Implemented scalable and maintainable Python codebase adhering to best practices and design patterns.
- Implemented frontend interfaces using HTML and CSS, ensuring high-quality user experiences and responsive design.
- Exposure to Angular framework, contributing to the development of interactive and dynamic user interfaces.
- Implemented new features and resolved bugs, resulting in an enhanced user experience and increased customer satisfaction.
- Designed and implemented database schemas, and relationships to ensure data integrity and efficient storage.
- Demonstrated proficiency in utilizing a wide range of SQL commands for data manipulation and retrieval.
- Collaborated with internal team to convert end user feedback into meaningful and improved solutions.
- Participated in sprint planning, daily stand-ups, and retrospective meetings to ensure project transparency and adaptability.
- Prioritized customer feedback and embraced change to deliver value-driven solutions effectively.

Project 2: October 2021 – December 2023

- Developed scalable backend components in Python for web applications, ensuring robustness and reliability.
- Integrated payment gateway solutions into web applications, facilitating secure and seamless transactions for users.
- Designed and implemented RESTful APIs using DRF to facilitate seamless communication between front-end and back-end systems, improving overall user experience.
- Leveraged Django and Django Rest Framework to architect and develop RESTful web services, handling CRUD operations and authentication mechanisms.

- Designed and styled user interfaces using HTML, CSS and JavaScript adhering to modern design principles, and ensuring cross-browser compatibility.
- Troubleshooted and debugged issues in the existing codebase, reducing the number of production issues by 30% and improving system reliability by 25%.
- Participated in sprint planning and provided inputs on enhancements in user stories.
- Conducted root cause analysis for identified defects, and worked closely with testers to ensure timely resolution.
- Experienced in agile software development, actively involved in sprint planning, stand-ups, and retrospectives, ensuring timely project delivery and team collaboration.

TRAININGS & CERTIFICATIONS

- Python developer Certification
- Azure Fundamental Az-900 Certification
- Django Developer Certification

EDUCATION

Masters Of Technology, November 2023
Birla Institute Of Science & Technology
Pune, Maharashtra

Bachelor, Computer Science, March 2019
Deogiri College of Aurangabad
Aurangabad, Maharashtra

LANGUAGES

- Hindi, English & Marathi
